Vehicle Fee: \$6

Weather

January: 48/39

February: 47/38

March: 51/40

April: 53/41

May: 62/49

June: 71/58

July: 79/68

August: 77/66

September: 73/61

October: 63/51

November: 53/43

December: 47/38

One of the more remarkable things about the view from the summit of Mount Diablo, is that you are able to see 35 of the 58 California counties, with a direct sight line to the summit of Half-Dome, Yosemite, some 135 miles ESE. The trail is 13 miles long, and is listed as being one of California's 6 most challenging hikes, so please make sure you are prepared, before embarking on this journey. It is also important to remain mindful that even though the temperature averages may seem mild, there is significant variability in temperatures. Summer months can routinely bring daytime maximums into the upper-90's, and the mountain does receive snowfall. So depending on the time of year you visit, make sure to pack\dress accordingly.
